SPRING TRANSPORTATION CONSTRUCTION CONFERENCE & TRADE SHOW

Focusing on Virginia’s constantly changing environment and the impact it has on the transportation construction, engineering and aggregate industries this year’s conference will explore the outcome of the latest funding efforts by the General Assembly. The potential for new funding as our economy recovers will have significant impact on how VDOT and the industry pursue the delivery of the Commonwealth’s Transportation Program. In addition to specifics on the future of transportation funding the conference will include multiple technical and business development sessions led by VDOT and industry personnel. Throughout the duration of the conference industry exhibitors will be showcasing their latest products and services during the conference trade show.
